Attn: Mr. Andy Hord

Dear Andy,

I wanted to drop you a line and let you know that we enjoyed working with on the Bridgewater track project. This was just one of many projects we have done with you over the years, and as always, your people were right on top of things. The grade was exactly ready when you called for us to mobilize, and your field personnel were there constantly to help us check grade.

We had a few extras on the project, and we appreciate your prompt attention to these issues, and also thank you for the prompt payment for all work performed. It is always a pleasure to work with you.

Sincerely,
B&S Contracting, Inc.
