To whom it may concern,

Precision Sports Surfaces installed our schools' and county's first rubberized track surface in the summer of 2009. The entire staff was so helpful in the planning and executing of the whole process from start to finish.

I was personally really impressed with how available and flexible the company was to work around my teacher/coach schedule. Precision has the resources and puts in the time to make sure you ended up with a first class facility.

We just recently had our track relined and it now looks just as good if not better than the day it was installed. Our Precision track surface has lived up to its reputation and is made to last.

I highly recommend Precision Sports Surfaces for anyone who is interested in installing or updating their rubberized track.

Sincerely,

*Tommy Maguire*
